

Association Area

The various associations in the school carry out many projects throughout the year: professional, sports, humanitarian and events. These actions contribute to the richness of student life.

Thanks to the multiple activities that it is possible to do within the associations, you can fulfill or express yourself in the project of your choice.

Each committee is made up of first year students from all courses so as to represent the diversity of the teaching at the ESCI of Ain and bring a multi disciplinary outlook to the actions.

Each year, the elections and passing over the responsibility are at the end of the first term, so as to maintain a link between years.

ESCI of Ain associations:

- ESCI BDE, for fun
- ESCI Sport, to relax
- ESCI Solidaire, to help others
- ESCI Junior, a professional side

We can also talk of ESCI Prolink, our graduates association. This latter assures the intergenerational link, participates in the organisation of events linked to the school and offers opportunities for finding work placements or jobs.
